Thanks, Jason. I share that understanding.
However, we are concerned that the Corps might move first and issue a final JD before EPA is able to submit.
Can Chair Boxer communicate to the Corps at the national and district levels that it should not issue the final JD until the EPA has time to submit?

Our understanding is that EPA region 9 is preparing to submit this to HQ as a "special case" which would prevent the Corps from moving forward immediately on a determination, give EPA direct involvement in the decision, and require resolution between the agencies.
